

CODING & ROBOTICS WORKSHOPS FOR GROUPS

WHAT PARENTS ARE SAYING:

"Educational and so much fun. My son has been playing with Scratch ever since his camp and really wants to take classes now. Highly Recommend!"

L. Kovacs

"My son has enjoyed all the coding and robotics workshops he has taken at Waxhaw Kid Coders. I usually have to tear him away when it's time to leave. Ken and his helpers are always very helpful and courteous. We will be back and I highly recommend them to others."

T. Dubar

"My 9 year old did her first robotics/coding camp this summer and had an absolute blast. Every day when she would get home she would rave about how much fun she had had, then promptly sit down with her flash drive and go over all the work she had done. In this day and age when all sorts of companies are competing for our money and time this is one where it is well spent."

C. Houser

GIVE YOUR GROUP OF 4 OR MORE

A CUSTOMIZED HANDS-ON LEARNING EXPERIENCE

100% BEGINNER FRIENDLY

WHO

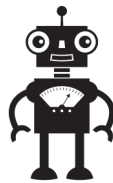

Home School Groups, Parent/Teacher Organizations, Boy Scouts, Girl Scouts, Clubs and Teams! We are seeking kids who love technology and want to learn how things work! AGE GROUPS 4 - 6 | 7 - 9 | 10 - 12 | 13+
